Thread: [\\$250/DAY => A VERY EFFECTIVE AND PROVEN METHOD <= \[EARN or REFUND\]](#)

Not too good at writing threads.

I have a method that GURANTEES at least \$200 daily. I am only selling 3 copies. Since my reputation here is not the biggest

The money is earned in your choice of Bitcoin, Tether, ETH or LTC. This is White hat as well. Takes about an hour a day and could hypothetically outsource the work. There is also possibilities of being able to make more than \$250 a day, with more effort. I will be walking you through all of the steps personally, on a discord call. I will also do the method with you for the first couple days to ensure you receive your investment back. I will be willing to refund the full amount if you do not receive profit from acquiring this method.

Please PM me if interested.

Copy 1 will be sold at \$400

Copy 2 & 3 will be sold at \$500

[contract=tid]Start Contract[/contract]
