Thread: [Huge Omegle Traffic](#)

Jeff Bezos - August 3, 2022, 5:54 pm

So I am getting a huge amount of traffic to my accounts and I was thinking I could offer a service to run my Omegle bots for you guys, would anyone be interested in this kind of a service? I'm currently getting like 100 adds per hour and if I leave it overnight I'll probably get above 600, the traffic is not HQ like [BRAND NAME REMOVED] but its Medium Quality. Let me know what y'all think

Omegle traffic it's not even low , it's worse. If you able to get 1-2 customers from 1000 omegle adds it's miracle. So not worth it at all. But who knows , maybe someone will be interested to talk all day with hundreds of timewasters ?

I would believe that if i wasn't tried omegle before too. Sorry , It's hardest and shittiest traffic i ever saw , and i'm really doubt that's you are using it for a few years and able to find customers. I don't know what profit you mean , you need to chat 10-12 hours with hundreds of people to find 1-2 customers. I know that omegle traffic looks cool from start cause you getting thousands of adds, but it's just a timewaste. it's my opinion , and my own experience with omegle ?

Everyone with their own experience. It didn't work out for you, it worked out for someone else, simple.

I mean there's a lot of much easier ways to get quality traffic and not waste time. But yeah , why not , everyone can try to see
