Thread: [UNLIMITED UBER EATS AND RIDES VOUCHERS - UNLIMITED FREE FOOD/RIDES - WORLDWIDE](#)

znc - August 5, 2022, 2:02 pm

You read the title right.

There is a new Uber Eats method in town. You can generate UNLIMITED vouchers worth ANY AMOUNT you want. For as many meals as you want.

Example: Within just a few minutes, I can add 30 vouchers worth \$100 each to my Uber Eats account.

These vouchers can be used at ANY store. It makes your order COMPLETELY free, INCLUDING TIPS AND FEES. FREE.

This method is INSANE.

You ARE allowed to sell these vouchers to other people at discount. You can make your \$200 back in a day.

THERE IS NO CART LIMIT. THIS WORKS WORLDWIDE WITH UBER EATS AND RIDES AS FAR AS I KNOW (if you buy worldwide and it doesn't work, obv I refund, but every country tested works)

Price: \$200 or \$150 for people who bought my older methods.

(Aug 6, 2022 09:10 PM)Gorkhali Wrote: [\[CITE\]](#) OP better raise his price because holy sh*t this is absolutely insane. I bought his past method as well and was shocked but this is something crazier.

Method: Very Unique - Exploiting a loophole

Set up: Takes like 30 mins, a bit tedious but OP helped me from A - Z.

Investment: like fu*ing \$2 a month lmao

Price: Absolute Bargain - I know if it was some other greedy sellers in this forum they would price it at \$1500 MINIMUM.

This is NOT carding, social engineering, or anything like that. We are simply EXPLOITING Uber's backend.

I am not responsible if this gets patched. You are buying the method as working at the time you pay. If it gets patched, I owe you nothing.

There is absolutely no reselling or sharing of this method. I was lenient with people on my last method, but I'll be strict this time. This method is huge.

Huge vouch for this guy! I'm a customer from a previous method as well! He is always great with helping with the methods!

This method is legit!!! It takes some setting up, but once you get going it's smooth sailing! EASILY best Uber eats method EVER! (And I've used my fair share of methods)

Here's another one,

<https://prnt.sc/Xl620bdJb7Mk>

I have no problem using a middleman or selling cheap vouchers to potential customers to prove it's legitimate.

I've already sold to 7+ people (some off site) as well, I will try to get more of them to vouch here.

Vouch, bought both uber eats methods from this vendor and decided to buy this one. Worked amazingly and you can easily make your money back . Do not miss this. He is also very helpful compared to other people who sell methods.

If Uber patches this soon will you issue partial refunds or something along those lines OP? I'm interested if so.

I will not sadly.

With this method, you can get your moneys worth in five minutes by doing an expensive grocery order or something.

Not to mention you can sell vouchers for 50% off very easily...

so even if it was patched in 2 days, if you utilize the method, it'd be well worth.

I doubt it gets patched super fast, but never know.

How many vouchers can you create per hour?

It should work, we can test it out first if you are a serious buyer.

You can generate pretty much unlimited.
