I was scammed by user [hackforums.net/member.php?action=profile&uid=5137735](#) while doing an exchange transaction through Discord. They did a legit \$25 exchange at first, then sent him \$100 and he said "there was a problem with the first tx" and I need to send him more money. Told him I wouldn't send more and was blocked.

New to this forum so not sure if this is the right way to create a report, if anything else is needed I can provide (not able to post attachments or links without upgrade)

You are suppose to use the onsite contract system

Also provide more evidence, screenshots etc.

If you don't have a contract for this you are SOL bud.

Yeah i'm afraid HF is not responsible for deals and you should have properly logged this activity via Contract.

Lmfao haha these chumps doin' deals without the marketplace contact system makes me laugh. Should always do deals on site using the contact system. ^_^

A sure way to get scammed if you don't.

proof", and they have a screenshot of Discord. Do they contact Discord Staff and Moderators since that's where they did the deal?

1. Do not do deals on Discord.
2. Use HF Contracts when dealing with HF members.
3. If you get scammed on Discord, fuck off.

Bleh!

Going to use this thread to give idiots who contact me.
[hackforums09282829](#) Always use the contract system.
