What proxies does it work with?

Bot can work with any http proxy.

I would recommend using residential or mobile proxies, in all my tests I have used iproyal's residential proxies (very low price) and they performed very well

Price has been reduced! Waste no time and buy the best omegle bot on the internet right now.

Demo Video can be found in the main post, with all the info. Send me a pm if interested

NotKover - September 4, 2022, 11:10 am

Is there support for botting the video section and support to spam specific messages to specific topics etc
