Thread: [Discord ban / server deletion method | WORKING AUG 2022 | \\$100 | Money back guarantee](#)

Autophobia - August 14, 2022, 12:50 pm

Title pretty much says it all. I am selling a working method to get users deleted on discord that doubles as a method to get the users servers deleted too since discord does both removes the owners servers along with banning of the user.

Please note this is not a ban service. You must actually know the person you want banned you cannot just ban anyone and everyone you want. You will NEED contact with the victim.

Please note this method is NOT instant and will take some time. Sometimes a few hours, sometimes few days, sometimes a few weeks. Preforming the method is very simple but like all banning methods you will depend on support to do the final task of banning / removing the account you preformed the method on but as my title says i will guarantee success of the method and provide support if needed for the lifetime of the method working. If for some reason the method fails you i will guarantee you a refund for the full amount as long as all the steps was completed correctly. Once again i will go out of my way to go step by step to ensure success its very easy just takes time.

Price: \$100 USD i do not plan to accept any less than this due to the possibilities of this method such as creating a banning service etc etc.

I accept many forms of payment, Giftcards, btc, eth, cashapp, paypal (for trusted members) venmo and much more it'll be much easier just to tell me what payment option you'd like to use i'm sure i can make it work.

I am willing to give this method to ONE extremely trusted individual to make a review on the method specifically on their idea of if it will work, how easy is the method, how much time it takes to preform it etc etc. After the ban is successful the user is to come back and give their final thoughts with proof of success. This member will be someone far more trusted then myself and will be selected very carefully so do not get mad if i do not choose you to review the method.

FAQ:

Is this method illegal: No. You will not be using any illegal tactics to preform this method.

Do i need money to use this method: No everything you will need to preform the method will be free.

Can i get a vouch copy?: As stated above only one trusted member will get a copy of this method and it will at first be considered a review due to the time it takes for the final part to take place to get a ban secured and once the ban is secured they are to come back for the final vouch.

Can i make this method go faster?: I'm sure there's a better way of working this method to get faster ban rates but i personally haven't spent the time to look into it.

Can i ban anyone?: Yes and no. This method does require you to have some form of communication with the victim or know somebody who does. If you can chat with the person then most likely yes you can successfully do this method.

Will this method be patched?: I personally don't think it'll get patched i feel like it'll take discord a'lot of effort to fix something like this and truly do not feel they will ever go out of their way to do it.

Proof of recent bans (Results came in this week)

That's clearly not how things work. Granted I have zero doubt I could indeed ban it but as stated in the thread it could take awhile due to discords support response time.

Like I say in the post there is a money back guarantee. Feel free to contact me to purchase or ask questions. Have a great day

Nobody said the method was mass report. And it's not. Nobody controls the final send out of bans other than discord staff themselves just like with any ban method you need the staff to actually do the ban this method just guarantees you'll be able to have the user banned once they get to it. Like I said sometimes they are ontop of it sometimes it takes awhile.

I'm not worried about money at all if I make sales I make sales if I don't then I don't.

Doing the method to prove it works will show many parts of the method making it very easy to figure out how it was done since you the victim are watching it happen and know a method is being preformed. Hence why I will not use it on you to create a sale. I'd simply be giving you 70% of the method just by you watching it essentially giving away the method for free. Hope that helps you understand further why I won't do that.

But if it helps there is photo proof in the spoiler with current dates showing accounts do get banned and I do offer a money back guarantee.

Update: Method still works, don't see any chance of patching anytime soon. Still can't get any of the accounts I've banned unbanned.

If you are still giving out vouch copies I would like to test it out and leave an honest review.
Thanks in advance and GLWS!

I have accepted your review contract and have sent you the method. Thank you. cannot wait to hear your thoughts.

Reporter - August 27, 2022, 12:42 pm

I have received a vouch copy of the method and I can confirm that the method will work as long as you have a decent contact with the person you want banned already.

You need to have a decent communication with them as it will require the victim to join an invitation of yours.

This means that you cannot ban any random user on Discord.

Due to this circumstance I cannot provide a much more proper review as I have no victim that I can try this on.

But if your criteria matches above, Then it would work

Are you still selling this and can anyone confirm this method still works?

(Jan 4, 2023 10:12 AM)Brutal Chaos Wrote: [\[CITE\]](#) Are you still selling this and can anyone confirm this method still works?

Yes I'm still selling this method. Only one person bought it and somehow somehow they didn't realize it was a method and not a service but stated it looks like it works. There's no reviews on it. The method is not quick and simple there's time and effort to fulfill the ban so not many people wanna mess with it. I try to be as honest as possible about this

sanfrancisco - April 3, 2023, 2:28 pm
