in this case yeh cuz it's almost impossible to keep a blue Badge hacked account without owner getting it back same day or after 1~2 days or even 1 week maximum

You goddamn right , that's why i gave 6 Months grantee with any account as i'm sure of what i'm selling

also every account comes with the OG mail " the email which used to create the account "
and also the mail had the original letter from the platform which means everything in verification

process went legit and smooth

and i've mentioned that accounts aren't bulled back or hacked i create every single one of em

you get the account with the name u want " extra fees "

and last thing i would like to mention , if u dont know the person and u haven't tried , why would you rep fuck him for no reason ?

at least try and give your vouch right after not before , that's for the guy whos blah blah blah before u m8 <3

Pretty steep for the IG, most verified pages run for \$3-4k.
