Thread: [Need 2 FUD crypts \(rat stub & miner stub\)](#)

Lyrice - August 17, 2022, 10:38 am

Hello guys,

I'm looking for a cheap(ish) crypt of my RAT file and my mining file. Hit me up with your price.

Ph4n70M Phr34K - August 19, 2022, 9:30 am

For miner: <https://hackforums.net/showthread.php?tid=6202446>

For other files, for example rats: <https://hackforums.net/showthread.php?tid=6052714>

that's what i currently recommend.

that's what i currently recommend.

Really ask, why different crypter for miner and for RAT ?

Milk - September 11, 2022, 6:12 pm

"Cheapish" and "fud" don't go hand and hand at all Lol, nobody on here or atleast that I know of will be able to get ur public malware truly fud, nor is it necessary at all since a high majority of bots will use wd so you should only focus on that runtime especially when starting out. Focusing on the next top few avs could also be good of course though "fud" is a waste of ur time and money (which u won't get anyway, and if u do it won't be for long)
