Thread: [\\$18k Revenue dropshipping in 1 month](#)

**Wunnaflo** - August 19, 2022, 12:26 pm

Had multiple stores in the past do somewhat decent but this is my first shop to actually pop over \$10k+ in a month

Stay blessed

I got few questions:

1. Shopify or Woocommerce ?
2. Payment Gateway ?
3. Alibaba or Aliexpress? ( If it is something else, could you share it? )
4. How do you decide a niche? (Do you use any tool?)
5. What is the avg price of product on your website? (If you could share your store link in PM, that would be awesome)

I am about to open my first ecommerce store. Your insight on these would help me a lot.

Great job, OP! I'm studying marketing right now and once I'm finished, I'll open up my own dropshipping store as well (again).

Congratulations. I'm growing a specific niche TikTok page, organic and slow. Don't know should I monetize it by CPA or dropshipping. What do you recommend?

**Bodzio** - August 29, 2022, 11:05 pm

Yes people have to understand that in this day and age advertising is EVERYTHING. With the amount of eyes on phones you just have to find the right way to push your shit out there

I had a guy offer to teach me dropshipping if I let him in on my crypto team. I should've taken him up on the offer.

How refreshing that it isn't Only Fans or Ewhoring. I'd like to see more of this on HF because there's actually so many online money making methods.
