Thread: [100% SECURE FIFA GAMES TO BET ON - NO CHANCE TO LOOSE \[GUARANTEED WINS\]](#)

Kaoru Hanayama - August 21, 2022, 5:43 pm

I've got friends that are playing Fifa professionally and are giving me 2 bets per week so I can make secure money by betting on them.

I've decided to start selling these picks with people here that are interested in making a guaranteed income with 0% chance to loose.

If you want to be able to bet and make money on those games, you will need a couple of accounts in different bookmakers that offer Esports betting (Fifa) Few accounts are needed to ensure that you won't be limited to low stakes (they limit the bets to 500-1k\$ per bet sometimes)

I can share you a list of websites that you can use to make your bets.

The odd for the picks is always 2+.

For now the price I will be charging for a single tip is \$1000.

Each customer will also receive 1 month free membership in my main server, incase you wish to bet on the regular bets we do too and make extra money.

If you wish to join, add my Discord

But Engineer helped me to find a bookie which has the game and today I m really happy and looking forward for his next match. Thanks a lot again bro

Also although I badly wanna show you all my winning ticket I can't do it because I don't wanna get noticed to bookies in anyway. So sorry guys.

I was unable to get into the bet as the sites shut it down shortly after seeing the bets flood in. Do not see this as the engineer's fault, I was able to see some people who were able to get in and the game went as planned. Some might see this as lucky but I see the source as legit since I personally also use his other service of sports bets and have used him for almost over a month now. With that in mind, this one is a bit pricier but can pay more with more bankroll as this is guaranteed.

When it comes to betting - I can ensure you, i know what I'm doing and my customers trust me. I can ensure you and everyone working with me can confirm that \$500 is nothing for me as it's way less than I spend betting on my tips daily.

So no problem using a Middleman?

Where are your friends playing since all official tournaments have ended on fifa 22?

SIM-3970461 - August 22, 2022, 8:58 am

Looks way too good to be true. All these "secure" betting discords always end up disappearing sooner or later. dwc

Its propably on CyberLive!Arena . Idk how those people have managed to make bookies to get them into online betting sites, their players are extremely horrible. No wonder why they fix games lol.

We're not betting on these games to enjoy them but to make money from them ?

Timo - August 25, 2022, 2:20 pm

Be very careful everyone.

This is a scam, we already had the exact same scam a while ago.

OP is basically betting with your money, even if using a MM.

This works as following:

> You put \$500 in a MM.

> OP Gives a random win/lose on a game, this can be ANY game and ANY outcome, it does not matter.

> You bet bigger then \$500 on a betting platform, since you want atleast your money back from the cost + profit.

> If the bet loses, you get back the \$500 but lost money from betting, no loss or what so ever has been made by OP.

> If the bet wins, OP gets \$500.

OP does not have 100% sure bets, this does not exist and would most certainly not be sold on hackforums, OP is simply taking a bet with your money while being free of any risk.

This user (OP might even be a multi of this exact user, they have the exact same pricing) ran the exact same scam (he lost):

<https://hackforums.net/showthread.php?tid=6185164>

EDIT: Bonus points for OP, if multiple people take he's offer he can give 50% result 1 and 50% result 2 for guaranteed money.

All my customers are able to view the bets live as I'm betting a lot of money on them.

I don't talk about just seeing a screenshot, I'm sending them a link to my bet in Stake or in Duelbits which are the sites I'm loosing.

So before getting in touch with my work or who I am, don't accuse me of something you are unsure of.

I can make you sure, I'm not here to scam.

If I may, would like to know what bookie did you use, since liquidity for fifa is very low. Even if you use the biggest bookie in the world (bet365) you can't bet more than a few hundred on fifa.

This is wrong information, you can bet thousands if you wish.

I had to screenshot this, before you edit your post or something.

Massive red flag to anyone who considers buying this.

You literally can't bet that much on bet365 because liquidity is small. I'm pretty confident that you cannot bet more than 200€ or so on a fifa game at bet365. If you try to bet more then bet needs to be approved by a trader (see img below).

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
