Thread: [Is there a way to order post by post creation date?](#)

cytsunny - August 30, 2022, 9:04 am

Is there a way to order post by post creation date?

I can only see the option to order opst by last reply, but often it is just filled with old posts that have recently a new reply.

This?

Click asc

all of these are clickable to asc or desc

This only order post by the time of the last reply. (i.e. if a post was created in 2020, but got a reply just now, it will be put in the first line)

I would like to order post by post creation date.

?? Wouldn't you get a notification? Or you could check if you created the thread, look through your threads?

What he meant is, if you sort posts by last post a thread that was created in 2020 will be bumped to the top.

He's trying to sort threads by creation date, not last post on the thread.

Omniscient - August 31, 2022, 10:42 am

Scroll down to the bottom of the page. There are sort options including Creation Time.

Ahh, I was clearly way more confused than I thought then, oh well/.
