Thread: [Using Onlyfans - My personal review and steps \[\\$350 in two days\]](#)

SIM-4932765 - September 2, 2022, 6:51 pm

WARNING: I'm not new to e-whoring, I've been doing e-whoring for some years. Before making this thread I had some knowledge about how Onlyfans works, used to help friends impersonating models.

My e-whoring guide, in case someone's interested:

Hey everyone, today I'll be making my personal review of my two days using Onlyfans and give y'all some tips to increase your profits!

I spent the first day searching for a reliable source of pics/videos. Found a girl who got leaked last year, she had a lot of content with a low fanbase (244 fans). Created some social accounts (Twitter and Instagram) and verified my Onlyfans account. After that started growing both Twitter and Instagram accounts in order to get some visibility.

My main idea was to get quick cash, so I developed a tactic that I love to call "hey it's free today but who knows tomorrow :)". So for it to work, I left my Onlyfans free during the first day, everything free, also posted 1 semi-nude (not showing boobs) on Onlyfans timeline. My objective was to impress everyone and on day two I would post something like "hey everyone today I will post a titty reveal" and make my Onlyfans paid so everyone will need to pay to see it. Spoiler: it worked.

What I did to grow both pages (Twitter and Instagram):

Instagram: At the beginning I tried posting semi-nudes type of content but I got an warning from Instagram so I changed it a bit and started posting normal thicc type of content, like full clothed pics but kinda sexy. Hashtags I used are based in: #sexygirls #onlyfans #onlyfansgirl and #nsfwcontent. After that, when receiving a message, I always tried to bring people to my Onlyfans by telling them I would give a gift if they subscribe me there.

Twitter: I already had some knowledge on how Twitter works in nsfw communities so it was easier to earn followers. Posted a few messages saying that I was horny and that type shit with some hashtags and emojis and after that did the "rt + fav to be moots" and earned a lot of horny followers. Hashtags I used are based in: #nsfwtw #nsfwtw and #onlyfanspromo. I always told my followers in dm's that I was doing dickrates for \$5 so I made \$25 on the first day on Twitter selling dickrates.

At the end of day one I had 159 followers on Twitter and 35 followers on Instagram. Total profit: \$25

Second day came and I posted that I will be doing a titty reveal after midnight. With that said, changed the subscription type on my Onlyfans from free to \$5, not that expensive, that way I can get more subscriptions. Spent the rest of the day posting shit on Twitter and did a few dickrates. Also started following and talking with a lot of people that were selling content, that way I could see more relevant people on my timeline. Commenting on posts from another girls gave me a lot of followers since a lot of people were following them. On Instagram I just chatted because in Instagram it was way harder to get followers.

At the end of day two I had 478 followers on Twitter and 55 followers on Instagram. Total profit: \$60

Now on the third day... that's when the things escalated quickly. As I said before, I was going to do the titty reveal after midnight, and ye, I did it. At 00:25 AM I dropped it and notified (via private messages) all the expired subs (because they had the free subscription type activated and when I changed it to \$5, after the midnight they would need to pay to get access to the content again) and they just started subscribing and dropping tips. Also did a thing to notify on Twitter when I post something on Onlyfans so I got +2 or +3 subs from that Twitter post. I even created a menu where people can buy things like feet pics, dickrates, titty drop, and that type of content.

Spent the rest of the day talking with people and posting more shit on Twitter, also paid \$10 for a promo on Twitter.

At the end of day three I had 976 followers on Twitter and 64 followers on Instagram. Total profit: \$338

Screenshot of all the earning from Onlyfans

What I'm planning doing next:

Since I already got a good amount of cash and have a stable Twitter account, I will try to grow my Instagram by buying (with the profit money) real followers (from any smm panel) and then hire two or three guys to spend all day talking with my subs. The key is to stay legit, don't get too much ambitious, people need to trust you and think you're real.

Main tips:

Get a girl to send voice clips saying horny things on Onlyfans dm's;

Make your Onlyfans free for some days to earn followers;

Find Subredits to share your Onlyfans Profile;

Find Discord servers to share your Onlyfans Profile (optional);

Grow your Twitter account;

-- Post using hashtags, talk with other people and comment on people that are also selling content.

Grow your Instagram account (optional);

-- Post using hashtags and try to buy promos from well-known pages.

Buy Onlyfans access (using an alt account) on the person you are using to your Onlyfans profile, that way you have more content to post (optional);

Nice keep it up, i also wanted to get started with onlyfans, but it as easy, how were you able to verify the account without the girls id?

When creating the account, use your name on the account and a pfp of your face, once it's verified you can change everything and no one will notice (there is no way to see your username changes or any type of lookup).

At the moment she has 201 fans, thats not a big deal, she's not well known in the nsfw community, also she only has Instagram with 2k followers so atm it's easy to stay under the radar. Always a pleasure helping others!

Yeah I agree, the only problem that you will face with e-whoring nowadays is what to do with so much money lmao, today I've seen a dude impersonating Corinna Kopf on nsfw Twitter and there was people actually paying to see naked pics of her... getting scammed.

Cyam - September 6, 2022, 2:30 pm

How do you get verified on OnlyFans without the ID or something? What is the verification process nowadays?

I didn't know you could use an eWhoring pack

SIM-2327840 - September 6, 2022, 2:40 pm

This is actually pretty stupid and illegal. Many e-whored with a stolen pack at some point and the

risk is indeed minimal but you are literally doing identity theft with your real identity attached to the account and probably using your own bank to cash out as well. You could be in big trouble if the girl you use finds out and decides to take legal action.

I managed to get verified using a real ID (not mine). After onlyfans verified me I changed everything (username, pfp, account informations).

The verification process is:

---Account verification: front/back ID and selfie.

---Bank verification (to be able to cashout): front ID and selfie with the ID.

I know that it's illegal af, I did it in the beginning just for testing if it works as easy as everyone says it does. Now I'm cashing out almost \$800 daily so I managed to block the girl on every socialmedia platform together with her friends (people that are pinned or tagged on instagram pictures). The informations on my onlyfans account are not mine and atm I'm using a revolut account (for cashouts) that I bought 2 years ago, so no real information there. If someday she notices my onlyfans and take any legal action idk what I'm going to do but yes, it will be fucked. I will just enjoy it while it lasts, I will prob do it for one more month and then stop because I will get out of content to post.

So if someone is thinking about starting doing the same, re-think and always do it at your own risk!

But I can think of zero benefits you can offer someone who does. Yeah there's a reason regarding the modeling agencies, being that men earned higher salaries in the regular jobs to begin with then put money in because of the wage gap, but Only Fans women don't need to put a lot of money into an Only Fans channel or whatever you call it. I doubt you are providing value.

Jeez you are that kind of women ofc you can't think of the benefits because you are close minded and you are delusional if you think wage gap still exists but sure go on with the BS. you are forgetting that besides having an OF account you need people to manage it, chatters, consistent traffic, paying for promos and so on. so yes once again most women are useless on their own and that's why they struggle and prefer to have a man to manage them so their only actual job is to provide her body? I would tell you to check the girls who worked with Andre Tate and make loads of money but you probably hate his truth too?

How do you go about finding models to work with?

It's very hard to find models to work with, you must give them very good terms otherwise they will prefer to work solo and get all the money. Also you need a contract, a real contract to stop the model from running out with your money or something. All the models we got were from twitter, best platform to gather nsfw traffic imo.

Theres no reason to ewhore when it's extremely easy to find girls willing to work with you. Plus why would you even risk losing all your followers OF will ask for the person's ID thats on your page and if you cant provide that you're account will be gone.

Like you can clearly market fine so doesn't make much sense not to do it legit.

I completely agree with you, but you need to keep in mind that this thread was posted to talk about how I made quick money using onlyfans and to give out some tips for beginners. Ofc it's better to get some models to work with you, in fact I'm doing it right now (I've been doing it for 2/3 weeks) and it's way more profitable and easier. After getting a good account with some followers and good targeting, you will get some dms from girls asking for working with you as you said.

- When I said that it was hard to find people to work with, I was talking about getting models without any knowledge and without a good account. If you're a model and you get messaged by a dude with 24 followers you will never trust him.

Probably one of her followers white knightng and letting her know when he ran in duplicate content.

Anyway, I have been on a hunt for a good guide to getting verified on OF via grey hat means.

Totally excited and inspired by your adventure.

My id was expired, lost in the mail after renewal, and long story short will take long while to get renewed.

OF are complete donkeys about verifying me.

At this point I'm so annoyed that now I want to create a spate of verified accounts and promote different versions of myself. Altered and filtered of course.

[Meanwhile I started selling my e-whoring e-book! \(click me\)](#)

Hey everyone, today I'll be making my personal review of my two days using Onlyfans and give y'all some tips to increase your profits!

I spent the first day searching for a reliable source of pics/videos. Found a girl who got leaked last year, she had a lot of content with a low fanbase (244 fans). Created some social accounts (Twitter and Instagram) and verified my Onlyfans account. After that started growing both Twitter and Instagram accounts in order to get some visibility.

My main idea was to get quick cash, so I developed a tactic that I love to call "hey it's free today but who knows tomorrow :)". So for it to work, I left my Onlyfans free during the first day, everything free, also posted 1 semi-nude (not showing boobs) on Onlyfans timeline. My objective was to impress everyone and on day two I would post something like "hey everyone today I will post a titty reveal" and make my Onlyfans paid so everyone will need to pay to see it. Spoiler: it worked.

What I did to grow both pages (Twitter and Instagram):

Instagram: At the beginning I tried posting semi-nudes type of content but I got an warning from Instagram so I changed it a bit and started posting normal thicc type of content, like full clothed pics but kinda sexy. Hashtags I used are based in: #sexygirls #onlyfans #onlyfansgirl and #nsfwcontent. After that, when receiving a message, I always tried to bring people to my Onlyfans by telling them I would give a gift if they subscribe me there.

Twitter: I already had some knowledge on how Twitter works in nsfw communities so it was easier to earn followers. Posted a few messages saying that I was horny and that type shit with some hashtags and emojis and after that did the "rt + fav to be moots" and earned a lot of horny followers. Hashtags I used are based in: #nsfwtw #nsfwtw and #onlyfanspromo. I always told my followers in dm's that I was doing dickrates for \$5 so I made \$25 on the first day on Twitter selling dickrates.

At the end of day one I had 159 followers on Twitter and 35 followers on Instagram. Total profit: \$25

Second day came and I posted that I will be doing a titty reveal after midnight. With that said, changed the subscription type on my Onlyfans from free to \$5, not that expensive, that way I can get more subscriptions. Spent the rest of the day posting shit on Twitter and did a few dickrates. Also started following and talking with a lot of people that were selling content, that way I could see more relevant people on my timeline. Commenting on posts from another girls gave me a lot of followers since a lot of people were following them. On Instagram I just chatted because in Instagram it was way harder to get followers.

At the end of day two I had 478 followers on Twitter and 55 followers on Instagram. Total profit: \$60

Now on the third day... that's when the things escalated quickly. As I said before, I was going to do the titty reveal after midnight, and ye, I did it. At 00:25 AM I dropped it and notified (via private messages) all the expired subs (because they had the free subscription type activated and when I changed it to \$5, after the midnight they would need to pay to get access to the content again) and they just started subscribing and dropping tips. Also did a thing to notify on Twitter when I post something on Onlyfans so I got +2 or +3 subs from that Twitter post. I even created a menu where people can buy things like feet pics, dickrates, titty drop, and that type of content.

Spent the rest of the day talking with people and posting more shit on Twitter, also paid \$10 for a promo on Twitter.

At the end of day three I had 976 followers on Twitter and 64 followers on Instagram. Total profit: \$338

Screenshot of all the earning from Onlyfans

What I'm planning doing next:

Since I already got a good amount of cash and have a stable Twitter account, I will try to grow my Instagram by buying (with the profit money) real followers (from any smm panel) and then hire two or three guys to spend all day talking with my subs. The key is to stay legit, don't get too much ambitious, people need to trust you and think you're real.

Main tips:

Get a girl to send voice clips saying horny things on Onlyfans dm's;

Make your Onlyfans free for some days to earn followers;

Find Subredits to share your Onlyfans Profile;

Find Discord servers to share your Onlyfans Profile (optional);

Grow your Twitter account;

-- Post using hashtags, talk with other people and comment on people that are also selling content.

Grow your Instagram account (optional);

-- Post using hashtags and try to buy promos from well-known pages.

Buy Onlyfans access (using an alt account) on the person you are using to your Onlyfans profile, that way you have more content to post (optional);

Are you using a model?

Onlyfans is very well organized compared to Patreon or Fansly. It has plenty of tools and features for creators and let you monetize every fraction of your work.

Do you have any recommendations for getting a new packs? I've been using the same one for quite some time... as selling content wasn't really my fortae. I've always pushed adult cpa and pps, but once I saw how easy it is to sell content, I added it to the roster too.

I read your method for verifying the OF account, but do you know where I can find some packs with verification videos for something other than this? Paid or free will be fine.

Haha that's not too bad, I've recently been looking into VAs based in like Philippines since they are pretty professional n normally quite cheap.

And yeah idk how anyone could enjoy it, probably just desperate for cash and can't think of ways to make it other than just workin for someone else which is great for us at least ?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

It went good to be honest, at the moment I'm no longer doing it because I started my own agency with a friend a while ago.

Oh shit, nice! I've been thinking about doing that as well. How has that been going? Have you found a model?

Yup, I even did get a few working at the same time, at the moment I'm no longer focusing on it but it still gives me a pretty good passive income.

I know the money is in this niche and always wanted to pursue this but the issue for me has always been finding the girl to verify and make content. Good job though. Nice profits

Also you need a contract, a real contract to stop the model from running out with your money or something. All the models we got were from twitter, best platform to gather nsfw traffic imo.

A few years back I had 3 models providing me with content, it isn't easy to find the first one, but once you find 1 you can usually find more, gets hard to manage them all on your own, at least for me I could manage 2, the third one I eventually "sold" to be ran by someone else and kept a % of their earnings as well.

You are in sales, if you are the chatter whilst ewhoring you need to be very good at talking, sales, and manipulating people. I'm sure you can think of ways you make the girl you are trying to close as your model believe you can provide value to her. Find someone who isn't making that much, and make her see how much you could bring in, make her believe all her dreams will come true. If she's a small creator, what is the main reason she got into this type of work? To make money, you can help with that.

Once you have that one girl, if you treat her well, maybe she has some friends who might want to make money like her, easy, without doing any work.

You ran a onlyfans, you know it ain't "easy" for a normal, lazy person to make money on there, there's work to be done, girls are lazy or some are.

People you might know in real life, for example, I once worked with this older lady in her late 30s maybe early 40s, this was a while back and she was basically exposing all her body for free on instagram. We became really good friends and I eventually told her, hey I have managed a few girls myself, I have made a pretty good amount of money with this without even being a girl. I then started telling her how hard it actually is, that you need to find traffic, manage clients, be talking all day, and that we would probably want to target US people, so you'd have to stay up very late talking to people.

In her head, she sees how hard it actually is, but she also has seen me go from not having much money to getting nicer things, and expensive things, people notice that you actually have money and fall for it. You can also show some earnings, screenshots to make them believe you even more.

If you actually ewhore you should be able to show some good numbers if you know what you are doing, you can convince a normal girl, that might be a little crazier, to do this type of work or a girl who really wants money.

I haven't read the whole thread, but hope if you haven't found a model, that this helps or anyone who reads it. There are always opportunities everywhere, everyone wants to make money, fast and without doing any work.
