Anyone here into cosplaying or enjoy watching others cosplay? What kinds of cosplays have you done and what characters do you want to cosplay?

I'm fairly new into cosplaying, I've done a pokemon trainer, astolfo and a catboy maid.

I want to do some other cosplays eventually like pitou from hxh, felix argyle from re:Zero, eraserhead, deku and uravity from mha, nezuko from demon slayer, Mikasa and eren from attack on titan.

Izaya Orihara. I got the hair and outfit down so well, but unfortunately I don't have any pics from back when I went to conventions.

Not into cosplay as much as going to conventions and engaging with the community.
