Thread: [\[SELLING\] AUTOSHOP OF EMAIL LIST | +200M IN STOCK | AUTO-DELIVERY | AUTO EMAIL DEBOUN](#)

opsec667 - September 6, 2022, 4:37 am

Hello,

I am selling my project who is called "mail-list.cc" where you can buy 200M+ leads with automatic delivery.

The autoshop has been designed to run autonomously without the need for any action from the admin or to restock his mails.

We have set up a system that allows you to restock mails simply by moving a text file containing your mails to the server and the system will automatically process the mails and register them in the database in a few seconds.

The same for the delivery of the customers it is automatic thanks to scripts in BASH & Python as well as an autodestruction of the links of downloading programmed on 72 hours.

There is also a script that runs every 15 minutes to check the current stock of the shop.

Screens server stock -

https://prnt.sc/AeW_faZlj-AD

<https://prnt.sc/f21uYjB1AkNy>

<https://prnt.sc/BugVNBGUYPjX>

Our script can deliver more than 2.500.000 mails in less than 30 seconds at the customer's request. Restocking of mails takes about less than 30 seconds as well.

It is a fully automated e-mail list store with automatic sorting and integrated checker in order to have the least possible maintenance to be done by the admin.

SIM-4852554 - September 6, 2022, 5:00 pm

so what this can do is

if my clients need leads from news sites or just general emails
they can use this site and get leads?

they can use this site and get leads?

Of course totally, you can sort according to the category of the mails by adding a description. Then the process is automatic and the customer is delivered automatically in a few seconds.

It seems like a solid solution. My question is why are you selling it?
