Thread: [Bypass for Queue-It System](#)

Cwilson12314 - September 6, 2022, 6:56 am

Hi,

I'm looking for a way to bypass the queue-it system for buying tickets. I used to use the User Agent Googlebot method but that has now been blocked.

Any help would be appreciated.

Thanks

What tickets are you trying to buy? Welcome to HF.

Anyone have any note to share? Stays in the secret squirrel club ?

Alright Lads,

Struggling with the same. I think the solution lies with the token it assigns you. Not sure how to get around it yet but spent some time on it. Does anyone think someone has cracked it yet? After the user string stopped working it seemed to have tickets for a fair amount of time after the sale started however now noticed they go quick like the old days.

I agree there's something going on.....

Stays secret ;) Sorry lads!

Although the secret isn't with the token unfortunately, Alot of people wasting their time on that.
