Nice - September 6, 2022, 12:05 pm

I'm selling a new Paxful Money Making method which can make you 20-30% per trade.

This is not: Amazon Gift cards, or any type of gift cards.. my method has a unique twist & you'll see what I mean.

You need to be 18+ and residing in the USA for this to work.

Price: \$500 per copy | 10 Copies left - Limiting copies to keep my method unsaturated.

Withdrawal time is 24 hours for each trade. There's other options for same day cashouts as well.

MM can be used until first successful withdrawal (reputable people only)

Not giving a vouch copy, only doing MM option - your money is safe.

PM me for my contact info & if you have any other questions.

Seems really interesting. Just wondering, isn't there any way to bypass that US restriction?

Does this involve PayPal or stripe or Revolut or Apple Pay?

Hey bud, looks nice.. Paxful has been done so many different ways, would be great to see something fresh.. Few questions..

Are we using a certain payment method that we may not have access to? Like if you were to tell us we need to use zelle (not saying you are just an example) but our bank doesn't use zelle, we'd be

stuck.

Are buying and selling on paxful? I could be wrong but I think you need to be approved to sell right? Or maybe not.

20-30% is huge. Is this guaranteed? And can we start with any amount?

Payment method for my method is USA but read below ^_^

I'd say it's smart to start with around a few hundred dollars (\$200-300).

I also discovered a new method that I'm testing with 5-8% returns, if that's working well I may add it into the method.

And it's not region locked, anyone can do it.

I make anywhere from \$100-300 a day, sometimes \$500..

It all depends on how many hours you trade per day.

I personally make money from other things outside of Paxful so I'm not fully dedicated.

I also thought of a genius idea to make a bot to fully automate, will release in the future for customers.
