I was doing this from 2016 and at that time I used to make a hell lot of money with lot of buyers
I never scammed anyone and my buyers used to have full trust on me I kept doing this in my way upto 2020

After that I stopped doing this and few months back i started again made around 1200\$ in a month

But now traffic aren't that great means no traffic on kik

At back i used to talk to 50-100 people in a day and used to convert 300\$ in a day

Now I get talk to 15-20 people in a day

Can anyone help me with traffic on kik

I have not used snap

Should I use snap?
