Yes, this gives you access to the account with the full email address and the password.

***There is an additional new feature that I am also making available. I will now accept custom made orders with an email forwarding address. This means that all accounts created for your specific order will automatically forward any emails received in your hotmail or outlook account to any other account that you already have available. This provides further protection for your

generated accounts because you will never need to login to these accounts directly. All emails will be forwarded to the one specific email account you provide to me prior to me making the accounts on outlook or hotmail for you.

Appreciate the contract and your comments. I strive for a quality service here and I appreciate your evaluation. Thank you.

I just received the vouch copy accounts. It was really a fast service.

Took him less than 5 minutes to make them and send it to me.

I definitely recommend this service!
