Thread: [HF Story Time! The lounge tells a story](#)

Pikachu - September 14, 2022, 11:43 am

Okay so let's play a little story game here. I wanna try this out and see how the final results turn out. This is how we're going to play:

I will start this out by creating the first few lines of a story that we, the lounge will be developing. I can already tell it's gonna be complete nonsense by the end of it but that's the best part.

So this is how it will go:

I start the story, maybe add a few lines of a paragraph and suddenly stop. The first person to reply will choose how the story will continue based on the post before. Then once again the next person will have to continue from the last reply and keep the story going. Anyone can participate and you can reply more than once, however you gotta allow someone else to continue from where you left off before you can hop back in and add some more lines to the story.

If more than 1 reply is entered at the same time continuing off the last post then you may edit your replies accordingly to match up with the post directly before yours in the order they show up.

Also, if you want to respond to the thread without adding to the story please use double parentheses ((like I am doing here)) so we know what's part of the story and what isn't. I'm eventually going to compile all the replies into one big story and post the results in a future thread.

Okay so I'm going to go ahead and start:

The story begins:

There was once a young lady who wanted nothing more than to learn how to grow bonsai trees from seeds. She had the pots and the seeds ready, however
