Suggestion Idea: Increase Flip Limit for the Bytes Game for all/tiered for members

Over the past week I have come to enjoy the flip game quite a bit, purchasing, selling & but mainly purchasing bytes to use specifically for that game. It allows me to enjoy conversation with others and have fun. Other people do enjoy this quite a bit as well, but some members do hit a cap limit of 1,000 flips per day which from what I know is a 24 hour rolling period. It's not fun, I think personally and I've had others agree that the flip limit should be increased, but I think it could go based off of tiers or just in total for everyone, if it's tier wise it may give incentive to few people to even upgrade their account.

The following below could be the tier system if not increased for everyone

Normal Members: 1,000

L33T Members: 1,250

UB3R Members: 1,500

V3ND0Rs: 2,000

I am unaware of the length of time it would take to do the tier system, so if it is not applicable then you can disregard that portion of the thread.

this is a great idea I hit the limit all the time and just gotta sit and wait for it to reset would love this

I actually wonder now the reason for the limit.

Maybe it's something that deters abuse.

I guess it's to avoid bots flipping H24 with no limits, or to prevent people from abusing it one way or another.

Exactly what I assume, that's why I believe the tier system would be beneficial then it would only allow upgraded members to took advantage of the increase vs the general population which would have more potential for abuse

Gambling addiction moment xd

No. The limits are in place because people were botting the flip. Be happy I don't lower it.

500 flips per 24 hours 1k max.

Wasn't aware of an old limit, this is a new found love even though I've done it before. I've asked before & no one had much information to give me, I appreciate the knowledge

Livewire - September 16, 2022, 6:26 pm

Really there's only a handful of people that would need the limit increased.

Proof - September 16, 2022, 11:33 pm

Really not needed. Just flip 5ks only.

I've advocated for a like 10-15 min 100k flip limit, but that didn't work out.

Blockonome - September 17, 2022, 2:22 am

I think the system is working perfectly good as it is now.

I like the tiered limits, the 1k limit hurts.. but it's true, only a small amount of people are experiencing this issue.

If 1K isn't enough, I'm sorry to say you have a gambling addiction lol.

1K is plenty if you do higher byte flips.

Cooligan - September 17, 2022, 8:48 pm

I gotta say I'm not sure how 1,000 flips per day wouldn't be enough for the majority of people. I mean, that's a lot of flips per day lol, you just can't keep doing small ones under 100 or so over and over.

Like others have said, raise your flips up a bit and I'm sure you won't need more than the 1,000 per day.

Something tells me you wouldn't need more than 1k per day if you were flipping the new 10k flip limit each time. :P

Jinu - September 17, 2022, 10:35 pm

I wonder how all of your bytes last long till 1000 flips. My bytes stats go zero in a few flips. I have lost around 70k+ bytes in the Flip game after the adjustment of win and loss.

Eh, suppose you're right hahah.

My current strategy is placing a bunch of 5's to test the waters and then random big flips where I believe will be winners...

I should revise my strategy.
