We need HDD Storage servers in these datacenters!

A lot of people in the piracy industry that needs lots of storage in offshore locations instead of small ssd drives :D

We do indeed offer HDD drives on the Xeon E5 configurations on our website ?

If you need a server with a high amount of HDD's/different CPU/custom configuration send me a PM here or on Telegram, will happily arrange it for you.

threadsync - September 28, 2022, 12:15 pm

For whoever needs high storage servers we've added Offshore Storage Servers, from 12-bay servers to 36-bay, with Hardware RAID.

Check out the pricing -> <https://privateshores.com/store/offshore-storage-servers>

threadsync - September 29, 2022, 2:31 pm

We have added Stripe as a payment gateway to facilitate payments with Credit/Debit Cards, alongside this we've reduced the prices of Intel Xeon Silver & Intel Xeon Gold Servers.

I received a vouch copy from Blake, the server is excellent in performance and with abuse, all abuse was forwarded and no action was needed on them.

Great transparency, privacy and support, the Staff is also working on a new portal to have everything in a more organized and cleaner manner.

Speedtest from 10 Gbps Unmetered Server

Will for sure purchase soon.

Looking at this,

Do you plan on offering any discounts if we purchase quarterly, semi annually / annually?
On a large storage server such as this, Do you have Hardware Raid or Software Raid?

How long have you been in business and are you a reseller or do you also have the hardware?
Do you have any IP I could ping to check hosting of a dedicated server?

For example right now you use Cloudflare of your home page (Understandable)

<https://check-host.net/ip-info?host=https://privateshores.com>

threadsync - October 24, 2022, 10:35 am

Hey, I have already answered your questions on Telegram, however, the answers are also below.

(Oct 24, 2022 06:28 AM)Reporter Wrote: [\[CITE\]](#) Do you plan on offering any discounts if we purchase quarterly, semi annually / annually?

Yes, we do offer discounts if the duration of the billing period is longer than a month.

The prices will be shown publicly as soon as our new billing portal is ready, for now you shall contact me through Telegram for custom orders.

(Oct 24, 2022 06:28 AM)Reporter Wrote: [\[CITE\]](#) On a large storage server such as this, Do you have Hardware Raid or Software Raid?

This depends mostly on the customers needs, however, on the server that you mentioned we offer Hardware Raid.

(Oct 24, 2022 06:28 AM)Reporter Wrote: [\[CITE\]](#) How long have you been in business and are you a reseller or do you also have the hardware?

With privateshores.com we've been in business since the start of August, however, our experience dates way back.

Even though privateshores.com is fairly new it's here to stay.

We do not resell, we have our own hardware.

(Oct 24, 2022 06:28 AM)Reporter Wrote: [\[CITE\]](#) Do you have any IP I could ping to check hosting of a dedicated server?

I have sent you a PM on Telegram with the IP.

(Oct 24, 2022 06:28 AM)Reporter Wrote: [\[CITE\]](#) For example right now you use Cloudflare of your home page (Understandable)

<https://check-host.net/ip-info?host=https://privateshores.com>

We're using Cloudflare temporarily until we are ready to release our take on a Layer 7 mitigation, which will be offshore and offered as a product. We are fairly close with completing this.

Shall you or any other members of the board have further questions feel free to post below or message me on Telegram directly.

We are using PrivateShores for our services offered by the business website that offers guides and paid services with Private Shores and a few other locations not relevant to this company.

In production environments Private Shores has exceeded everything we where expecting as most services on HackForums are hit or miss at best.

Private Shores is like when you are worried about getting goals and then Messi walks out and wipes the floor with everyone. This pretty much sums up how we feel about this service sorry for the footbol analogy its just something I love :)

Kind words that are well Deserved.

We aim to move the other 3 servers we rent to PrivateShores sometime this month away from Vulr and Linode if all goes well moving our services over.

Hopefully this service stays amazing for the foreseeable future.
