Thread: [Del Taco or Taco Bell?](#)

Pikachu - September 16, 2022, 2:22 pm

Which do you prefer and why?

So I love both. Taco bell is good, they have tons of good stoner foods and unique combinations, but they're expensive. The portions are also kinda small.

Del taco, also has some interesting combinations and definitely stoner food as well, but the portions are fatter and you get more bang for your buck. I also used to work at a Del taco.

For me I'm gonna go with Del Taco.

Gary - September 16, 2022, 2:24 pm

Never had Del Taco before, I don't even think we have one where I live. Have had Taco Bell plenty of times.

Livewire - September 16, 2022, 2:26 pm

I like taco bell, but I don't eat it often.

I worked in mexican restaurants for years, and all I ate was Mexican food every day so I don't really like eating tacos anymore xD

Will still eat it if I'm hungry tho.

Del taco is more of a west coast chain, there's like 3 or 4 that exist in florida where I'm at now, luckily I'm like 20 mins away from one. Taco bell is world wide I believe lol

Taco bell/Del taco aren't authentic Mexican food. It's Americanized "mexican" food. Del taco does have some more authentic style tacos as well with the soft corn tortilla and all that good stuff like Pico de Gallo, carne asada etc.

I'm aware of that. It's just I've also been spoiled by eating really good Mexican food, so tex-mex is just bleh to me.

Word.

Yeah, I've worked at like 5 different Mexican joints, and I've never had to pay for food.

They always let everyone get breakfast in thr morning right before open. I love me some chorizo and eggs mixed in with some other stuff.

Or chilaquilles, yum.

Can't go wrong there.

Omfg, tho there's this thing I'll add to everything. It's a sauce made from jalapeños, tomatillos, cilantro, avocado, salt, and garlic.

It is so good.

Burger King has tacos?

Charlie Sheen - October 6, 2022, 3:20 pm

Never had del taco but I almost voted for them, just because taco bell keeps getting worse. They need to leave their menu alone and quit removing things.

Side note. The Enchirito is most likely coming back. They removed it in 2013 and they are doing a fan vote. I actually downloaded the app so I could vote for it every day to return. Missed those. It's just going to suck because they used to be like 2 or 3 dollars god knows they are going to bring it back and charge like \$6.

They keep bringing shit in that people like and take it away and turn it into limited-time items that they like to bring back every now and then. It's annoying really.

For those who voted for Taco Bell. Please go take a scissors and cut off your tongue.

Are you kidding me? It's not even close.

Taco Bell is the worst of all fast food. If you can eat it and not shit your pants in an hour congratulations.

I used to LOVE Taco Bell. I actually worked for a year there when I was a teen. We would make fresh fried beans everyday. We cooked the meat too. Nothing was frozen. Now all their food is

complete crap out of a bag or frozen.

Then I discovered Del Taco, and it's just like Taco Bell was in the 80's. With everything FRESH. Huge difference.

I completely agree, and yes when I used work at del taco everything was fresh, the only items we kept frozen in the freezer were fries and pastries. Everything else was never frozen.

if i ever travel out of a midwest state and into a state that has a del taco, what should i get on the menu? taco bell's cheesy gordita crunch is my all time go to. and anything that has spicy ranch and nacho cheese sauce.
