Thread: [\[All Members\] 100 Free Bot Followers / Likes \(instagram / twitter\)](#)

007 - September 17, 2022, 1:04 pm

Like the title says, I'm giving away 100 followers or likes for instagram or twitter to everyone. The followers will be bots, they look like bots and aren't very high quality, but yeah it's free.

If you need another social media service or better quality, PM me and I'll send you something for free anyway.

HOW TO CLAIM

Register at <https://eurpanel.xyz/>

Post your username below, and what you would like to claim for free. (Instagram followers, twitter likes or whatever.)

That's all.

EDIT: Please do not load balance without setting up a Hackforums contract. Initiate a contract on the thread below, wait for me to accept it and I'll add +10% balance for your first order.

If you would like to thank me, you can do so by quick loving this thread:

I loaded \$10 to help support your new site and test out the spam followers. I'd appreciate anything to test out more stuff. Happy to give you a review also.

Loaded some balance on all accounts.

Things like drop rate, whether the accounts look legit or are obvious bots, how fast they are delivered (all at once or spread out over days/weeks.) if you can let me know what you'll use the followers for, I can recommend you the best package and give you some test balance for it.
