Thread: [MAKE \\$100 CRYPTO + PER DAY ON AUTOPILOT \[METHOD UPDATED\]](#)

Kaoru Hanayama - September 17, 2022, 2:51 pm

Looking to sell a very easy to use Crypto autopilot method.

The method is extremely simple to use and you're 100% going to make money with it.

You don't need to do any sort of KYC and it's working worldwide.

There is no limit for withdrawing, you can withdraw whenever you wish.

The setup takes a couple of minutes and you can start earning straight after that.

The method doesn't involve: NFTS, ICO, shitcoins trading.

In order to be earning with the method, you will need minimum \$300 in Crypto. The recommended is to have 700-1k for the best results.

Method can be scaled - for every \$100 additional per day, you need to invest another \$300 +

The method is whitehat and autopilot.

Price: \$500

There is no screen that show earnings proof from your customers . So yeah you should post your earning to make sure it's real.

He made that with \$100 investment. \$700 is the total resources needed for the method but you start with 100. Also you can earn more than 200\$ per 24h but I said that it makes \$100 per day as this is guaranteed.

Yeah, that's why I don't want to deal with MM for this method. Let's say we agree that the MM should release the funds after \$100 are earned which should take 1 day, but than the customer vanishes somewhere and me having to wait him. Sorry, but not. It's not my fault that people can't spare few hundred \$ to make more, that's their problem. Those who paid are earning and enjoying the method, those who don't take the risk will be doubting.

if you down to make it with a MM and set terms, in case i'd go MIA. i'd be down. i think we could discuss terms that are favorable for both parties.

If anyone is interested in buying with a middleman, I can sell the method for \$1500 per copy + the mm fee will be paid by customer. If I'm going to make the risk to trust a HF MM again, it better be worth.

Like I said, me and all the buyers who bought so far are earning well. I don't see any reason why I should please everyone. It's my product and I decide how to sell it.
