Thread: [Gambling Project - Money Making Machine - Take A Gamble With Me](#)

OPOG - September 18, 2022, 10:26 am

Looking to work with people that already have gambling websites created, or willing to start a new project with someone that has experience. Are you looking for improvement to gain more users? This is something that I excel at.

I have 3 people that are willing to work the website 8hrs a day to keep it running consistently and to bring users daily. I'm also willing to work as many hours as needed in case any employees do not show. Only want to work with skilled and trustworthy people that are not greedy and willing to work as a team.

Things I lack: Bankroll - Coding.

I may be able to get an investor after it's setup and running to help with bankroll.

31.8.8.0 - September 21, 2022, 5:12 am

You lack everything you need to build a good gambling website.

Money.

Great engineers.

This project is doomed to fail.

Hard work and people isn't enough.

Realistically you need a MINIMUM of \$500k to start an online casino based site.

Anyone that tells you otherwise is pure wrong.

Just a note on your comment on my rep aswell 'no-one trolls better than you':

This is not a troll in any capacity. You are trying to start an online casino that requires:

- Insurance
- Bankroll
- Engineers
- Accountants
- Technicians
- Anti-fraud engineers
- Lawyers

I also have drive and friends, you think I can just go start a hedge fund? No. It takes years of work.

Im sure the money these people are making with casinos is tempting you but they didn't just spin up some basic site and let people join.
