L1I DuRk - September 19, 2022, 6:28 pm

Welcome to my Loads/installs store:

I will keep this straight and sell lots of loads that can be used for what so ever task you need to be done, Residential IPs, website traffics, organic youtube views and streams, and miners as well. I won't be doing ransomware or locker please take note. This is high quality.

Your file:

You give me a direct link to the file (your encrypted files!)

Your file must have a minimum detection of 0-3/26

The file size is no more than 10 Mb. (if you exceed the limit, it simply won't download for you and the installs will go nowhere. In this case, there is no money back (I can only replace the link to your file, which is normal.)

Prices for Loads:

World Mix:

1000 - \$250

Asia:

1000 - \$300

EU:

1000 - \$550

USA:

1000 - \$700

GPU: (Price can be discussed)

As well I can help crypt your files to bypass Windows defender and other well-known antiviruses (you have to for this service is not free) since you ordering loads from me we can work things out.
