What are your thoughts on the new season?

Personally I like it, I'm glad the nimbus and kamehameha is gone finally, was cool at first but damn did it get annoying fast. I like the chrome splashes, I don't know if I have been getting lucky but it seems people haven't been abusing them.

anoncrab - September 23, 2022, 11:47 pm

Haven't played it yet, but I honestly feel like fortnite kinda went downhill a long time ago... either way I'll update this post once I start playing the new season with an in-depth review.

I never really played it a lot. I have had it downloaded ever since it came out, and every couple of months or longer I would sign on play a quick thing of battle royale and then that would be it. I started playing it a lot more last month because of the DBZ crossover. I think they keep it kinda fun, I like thinking about how much thought goes into creating the different areas each season.

It's been one of their better seasons.

HEISENPUG - October 7, 2022, 2:43 pm

I've played it a little bit here and they're. I really like the no building playlist though.

Yeah, it took me a minute to get used to because I used to use building to escape. But now I definitely could never play building mode again.

My long time friend [mention=1306528] is an avid Fortnite player. He's looking for others to play with. He likes no build game mode.

Goku - October 7, 2022, 3:03 pm

I haven't played since season 1. But, I do (obviously) love DBZ, so I bought the Goku skin xD Haven't touched Fortnite since then tho haha

Pikachu - October 7, 2022, 3:39 pm

I havent played fortnite in years, i honestly cant remember what season, for sure chapter 1, probably season 6 or so. sometime after loot lake was gone and replaced with who knows what.

The DBZ crossover was exactly what brought me back, go the vegeta, goku and beerus skins. Hardly ever use them, I usually am the peeled banana or lately the ninja skin.

Idk how I feel about this current event though.

3 shot sniper is pretty wild though
That sniper is so OP. 1 headshot and they are dead. Full shields and all.

Burnzy - October 7, 2022, 5:03 pm

Damn that game.. I used to play it since season 2 and stopped on chapter 2. Wonder if it will have the same treatment as Team Fortress 2. Game alive for 14 years

I enjoyed the nimbus cloud but Kamahama was OP at the beginning

Yeah there's not many scarier things in that game than when you're running around somewhere and you hear that "kaaaaamaaaaaahaaaaamaaaaaahaaaaaa!!!" and your screen turns blue. I have the nimbus glider, I'm glad the cloud is gone though, it was annoying af at the end of the game and you're trying to take someone out and they would nimbus away

They are definitely going to try to keep it going as long as possible, they have done a killer job so far and no doubt made a shit ton of money.

Blazin - October 7, 2022, 5:27 pm

It's alright, but not really too into fortnite anymore.

I hope we can make amends one day and play Fortnite together.

That's honestly what put me off the game when it first dropped, I was shooting the shit out of a guy then he did that build crap and I just quit after that

There's zero build mode now, I like it more than COD now because COD became whoever see's the other first wins. Doesn't matter where you aim they are dead. At least with this if you start getting shot at you have a fighting chance.

Yeah I've heard, might give it another shot with this new season, looks pretty dope. I used to be a pubg person, than played a little warzone and the one from bf5, then kinda got bored of battle royals after that, didnt even play Apex even though I heard it's one if the better ones

I hear Apex is pretty dope. I've watched Post Malone play it, there's so much shit going on at once
