Thread: [Looking for Web Developer for Website Cloning & Development](#)

IN10SE - September 22, 2022, 10:04 pm

Wanted to copy most function on this website: <https://experiorfinancial.com/> with a mix of <https://emma.ca/>

I will not need login information for clients, but the goal is to get leads or someone who can submit their "quote".

I prefer not using real people video or pictures, but a design like <https://emma.ca/>

I will have a graphics designer who can do all we need to replicate designs.

Not looking to pay thousand but please let me know how much would this cost.

Contact me for more info and budget;

Telegram: @IN10SE

i will send you pm regarding that

570RM - September 23, 2022, 1:26 am

I sent you a PM with my quotation and timeline. Kindly have a look and I look forward to work on this project.
