Thread: [AMP - IPHM - Gigabit](#)

yummyguck - September 22, 2022, 11:13 pm

Looking for a resonably priced dedicated IPHM VPS.

Minimum 1gbps guaranteed
Bulletproof
IPHM On
Good processing power

Sick of scanning NTP for a whole day just to see 1gbps output at the end of the day.

Would also like tips on better AMP sources.

Hey, check out my thread if you're interested in IPHM servers. I provide a 20-minute test server to determine the repeatability of my server.

scammer

SecuredNet - October 15, 2022, 1:35 pm

i am reseller from Novogara
scanning / brute focer usw is okay
(IPHM not working)

gadzille - October 18, 2022, 6:27 am

Lol most of people here scam, and only sell scanning shit..

BlackFire - November 9, 2023, 2:04 pm

Lol most of people here scam
