Thread: [\\$20.000 ETH PER MONTH ALL PROVEN \[CRYPTO METHOD\] 2 COPIES ONLY LEFT](#)

The Dude - September 24, 2022, 1:27 pm

Pros:

This is genius never seen before way to make a bank

Once you go through the few hours mentoring i provide and master~apply the process a few times, it will take you only 1hour of work per day

Profit goes straight to your wallet after each time, to your own keys no third party holding your funds for X period of time or paypal etc...

Works worldwide no age restriction all you need is a computer

Will literarly change your life very fast like it did to mine

Although it's a crypto related No trading, or nfts or ANYTHING risky at all involved

Cons:

You will make so much \$ that your bank may call you to ask where this is coming from when you cashout, Especially if you were broke like i used to be

Requires investement of around 500\$ in crypto

1hour of work but Focus Intensive

May not last forever, probably 6months to a year left

I will sell 3 Copies only and may increase the price significantly after each sell

Profit from the SS was made in 6months, and i have made a lot more since i started.

for those of you who may doubt, just PM me your discord, i'll be glad to show you proofs live, as i have my private keys for eth for now (was expecting a fork), can even sign a message or do a custom transaction.

Starting price is \$800 Only, will increase.

Price now is \$1100, will increase again.

I make \$20,000 but I will teach you for \$800 instead of put my effort in teaching you to make more

than \$20,000, I am just so kind to change your life.

You'd have the possibility to do that if you didn't work a 9-5 job at mcdonalds, i have the whole day free and i'm basically just waiting for eth and btc to recover from the crash to cash out
btw that price is for the first copy only and is gonna change

murt - September 24, 2022, 3:44 pm

I am a full time crypto enthusiast and I would love a vouch copy to post review as what you are saying is beyond scope of comprehension of many users here including my self.

007makis - September 24, 2022, 5:14 pm

Hey there! i will buy the method if you can prove you have made 100eth?
send me the public key please, thanks!

i got asked to sign a message but i would rather not post my main public key to the public as it may cause me some problems.
i can use a secondary wallet though with less but still a significant amount of eth if that suits you, will post it here for everyone to see.
has about 25% of what's on the main wallet, lmk

Sure, move \$20.000 ETH from one wallet to another, add .007? at the end of the eth and post the link of the transaction.
Should be the equivalent of 1month of income?

i would accept only reputable and old member to vouch for this not new made account and there are many here that can give trusted review about this method before anyone buying it

eSp0rt - September 25, 2022, 4:54 am

Started a convo with you.

fsociety_ - September 25, 2022, 6:06 am

Not reputed, claiming that method makes 20k\$/month and NOT accepting MM. Not even 50% 50%. Red Flag DWC. But if this is not a scam and is real, glws.

007makis - September 25, 2022, 6:29 am

Hey! i went through the mentoring but i still need localbitcoins to release the crypto i need to start the process, so far the mentoring went great and the method seems very smart to be honest so i'm not disappointed and i can't see how you can not profit from this.

Will edit this later with profits soon.

murt - September 25, 2022, 6:32 am

Why are you not offering vouch copies? seems skeptical. Anyone who Is interested stay on high alert

LMAO who even is this dude

Regulus - September 25, 2022, 6:52 am

I'd love to take a vouch copy but I don't have the funds to invest \$500 sadly :/

Number - September 25, 2022, 9:46 am

Who in their right mind would sell a method that makes \$20k/month for 1/20th of the price?
DWC this user is hella sketchy, hopefully nobody falls for this BS unless he accepts MM.

nice! how much time will it take me to have similar results if i start today?

is it scalable?

does it require any form of kyc?

007makis - September 25, 2022, 10:52 am

Edit : The method is a bit hard to do alone, but OP was helpful every step of the way. Profit is there, i've made 0.15*2 ETH so far, should still be able to make more today, the investment needed actually doesn't leave your pocket.

Important : There is a step that you can't do alone for now, you will relay on OP for it and he will charge you 15% of the profit each time, this wasn't explicitly mentionned on the deal but it's still fair IMO, as you only share it from the profit.?

sporetime - September 25, 2022, 12:21 pm

secured the second slot here

got a quick debrief about the method from op aswell as another friendly customer who's currently streaming the whole thing on the discord server for me, it sounds promising and the numbers seem surprisingly possible. Waiting for the official mentoring to start, seller is busy right now.

Excited asf!

Both of ya'll haven't made a single post in muliple years, suddenly this guy sells a method, ya'll start posting and becoming active at the exact same time, purchase only his method, and both vouch for it at the same time as well lol.

Extremely sketchy to say the least.

Agreed, I'd highly recommend dealing with caution on this one.

Also; if OP is legit, and making \$20k a month then he shouldn't have an issue donating to the site and getting the grand amethyst.

Shouldn't be a problem getting V3NDOR to help with sales or a sticky either, odd.

Kilp92 - September 25, 2022, 2:30 pm

Doesn't wanna do a mm which i find most odd. Since he says that he'd made 250k, but the fact of the matter is the 800\$ doesn't matter much to him on that 250k so why won't he use MM to secure the other side of the deal.
