Thread: [I need an English speaking VB developer for a deal.](#)

runamcp - September 24, 2022, 10:48 pm

I started a project 6 months ago, and abandoned it halfway because the developer doesn't speak English and I don't speak his language either. After the struggle and paid we went through while working on the project, I discovered some errors or rather changes that needs to be made.

So not to pass through the same pain of language barrier, he just gave me the source code.

I need a good VB developer to help me complete this project.

The deal is this.

For every purchase of this software, you get 30%.

WeedIsInTheAir - September 25, 2022, 1:52 am

PM me the info about the project and I'll see what I can do.

I'm restricted to sending a pm for now. Do you mind dropping your Telegram!

How big of a project? I hope the other guy doesn't also have a cut if he is out of the picture already.

I'm available depending on the scale of the project. Shoot me a PM or my Telegram is

@HossPumpkin

P.S. I'd probably rewrite the entire code-base in C# unless there's a reason it needs to be VB.

GruntStyl - September 27, 2022, 7:32 am

Depends what the project is regarding. How large scale it is. And if the original co-developer will be

receiving any of the sales or if he is out of the picture completely.
