He's a very nice guy, he always replied quickly to any concerns that I had and helped me set up the method. The setup process was straightforward.

So far after running it for 48 hours, I made approximately \$85-89 per day. The amount you make depends on the price of crypto at the time. I invested \$240 so, I made \$170 or so of it back already. In a few days, I should have made the amount I spent on the previous method as well.

Lastly, please only spend disposable income on this because no one can be responsible if you end up losing money instead of making money. He recommended having at least \$700 in hand aside from the cost of the method you pay to him.

No trading involved, but payouts are in crypto.

I wish you the best of luck with sales.

I also wish I was able to afford a copy. I would definitely grab one from you and give the most honest and detailed review as well.

Nonetheless, good luck.

You need to give a well respected member a free copy to review. Nobody gonna buy this unless proven legit, too many scammers on here.

People were saying the same for my other method, yet I got 4 sales already. I'm not in rush, whoever wants to make money will approach me. I give 3 discounted \$300 copies for a reason.

Now if people can't afford to pay \$300 that's not my problem.

Probably because most of your methods sound too good to be true and you also sell gambling services that are "100% guaranteed" that really aren't so people are a little skeptical. Oh and you also won't use a trusted middleman cause " you got scammed once".

Ofcourse, I cancelled my alienware order to order the guy his iphone as he was begging me for hours. His phone arrived Monday and is when I had to be paid but I got paid 4 days later. It was not my fault that the customer was busy and couldn't pickup the phone. I kept my part of the deal ?

Well I don't have 200k in crypto (neither do you, another story for another day) and if I had a deal with a MM I would not be crying about getting it released quicker. Something's not adding up with your tales buddeh.

Would you be fine in making a bet ? We both send any MM of your choice whatever amount you say over 5k\$.

The MM will than be able to take a look on my wallet and if I got over \$150k in crypto, I get your part. If not you get mine ?

Why can you use a middleman to make a ridiculous deal nobody would ever agree to, but not on your REALLY REALLY GOOD money making method ?? Seems legit once again.

I'm sure you would love the opportunity to try and fake what your wallet shows in hope a retarded middleman would fall for it. Whatever buddy, I wish you bad luck with your sales so nobody loses their money!!

Are you afraid to accept my challenge mate ?

Everything will be recorded live in the HF Discord server.

Let's send Zexi each 5-10k\$

I will than go to HF's Discord VC and open my wallet having over 150k\$. Everyone will be able to check my wallet address on Etherscan. I will from there proceed to send 10 people x \$100 each so again everything will be able to be tracked.

You up for it or you can only speak ?

This is 100% an attempt to exit scam.

If he had that money he wouldn't need to sell methods, simple.

Or, he would be fine letting Zexi or some reputable MM hold funds.

^ In the case that he knows his method works, but he knows it doesn't.

DWC DWC DWC

also broski you could've just did a blockchain search and sent a random wallet.

Put that into a SS with photoshop and said it's yours. You're broke selling methods lmao.

If you send a MM \$1 from the wallet which you claim has \$200k in it then we'll believe it.

Until then, stop tryna bullshit people so you can sell your bullshit methods.

Okay, since I'm getting so much hate from today on I will let everyone use Zexi MM to purchase my methods (as long as they pay the fee)

Hopefully, this will finally make people happy !

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Its autopilot method, doesn't require me to spend a lot of time explaining to customers. It's simple and easy and works really well. More people using it, doesn't harm my earnings.

20 Sales at \$750 = extra \$15 000 per month for me :)

Hello. So I had had purchased his previous method which can work well for some people, but didn't work that well for me. So he upgraded me for free to this current method 2 days ago and we made a contract for the method today for a vouch. So I'll give my thoughts on the method.

-It's whitehat - True

-It's working worldwide - It should work as long as you have access to crypto, internet, computer, etc

-No age requirement - True

-No KYC needed - True

-You can cashout daily - True

-Payments in crypto - True

-You can start earning as soon as you setup the method - Kind of (more like 24 hours later or so)

-It's 100% autopilot (your job is to claim your earnings) - True, it's as autopilot as it gets

-Can't be patched/saturated - Doubtful, not sure about this.

He's a very nice guy, he always replied quickly to any concerns that I had and helped me set up the method. The setup process was straightforward.

So far after running it for 48 hours, I made approximately \$85-89 per day. The amount you make depends on the price of crypto at the time. I invested \$240 so, I made \$170 or so of it back already. In a few days, I should have made the amount I spent on the previous method as well.

Lastly, please only spend disposable income on this because no one can be responsible if you end up losing money instead of making money. He recommended having at least \$700 in hand aside from the cost of the method you pay to him.
