Thread: [What application backend is this? Is there a methodology to narrow down the db/applic](#)

SIM-3218151 - September 26, 2022, 6:39 am

```
paymentInfo.paymentMethod=SC&MP_BillingAddress.oneline=
&mp.dummy.customer.account.billingAddress.streetNumberAndSuffix=
&mp.dummy.customer.account.billingAddress.streetName=
&mp.dummy.customer.account.billingAddress.municipality=
&mp.dummy.customer.account.billingAddress.province=
&mp.dummy.customer.account.billingAddress.postalCode=
&mp.dummy.customer.account.billingAddress.unitNumber=
&paymentInfo.topUpCC=false
&paymentInfo.topUpCCAmount_CC=
&BillingAddress.oneline=
&dummy.customer.account.billingAddress.streetNumberAndSuffix=
&dummy.customer.account.billingAddress.streetName=
&dummy.customer.account.billingAddress.municipality=
&dummy.customer.account.billingAddress.province=
&dummy.customer.account.billingAddress.postalCode=
&dummy.customer.account.billingAddress.unitNumber=
&paymentInfo.topUpCard1.accountNumber=
&paymentInfo.topUpCard1.value=0
&paymentInfo.topUpCard2.accountNumber=
&paymentInfo.topUpCard2.value=0
&paymentInfo.topUpCCRegister=false
&customer.account.paymentInfo.creditCard.expiryDate.month=
&customer.account.paymentInfo.creditCard.expiryDate.year=
&customer.account.paymentInfo.creditCard.expiryDate=
&customer.account.paymentInfo.creditCard.encAccountNumber=
&customer.account.paymentInfo.creditCard.dts.token=
&customer.account.paymentInfo.creditCard.dts.country=
&customer.account.paymentInfo.creditCard.dts.cardType=
&customer.account.paymentInfo.creditCard.dts.code=
&customer.account.paymentInfo.creditCard.dts.refId=
&customer.account.paymentInfo.creditCard.dts.result=NO_RESPONSE
```

Don't really think you can narrow it down to a specific application with just this junk code.
