I'm trying to get back into marketing. I've done some PPC, and PPA.

Also did a lot of ewhoring back when bluestacks and Kik was the shit.

I'm interested in getting some side hustles going.

I know nothing about eWhoring but marketing would be nice to join for :)

I wouldn't say I'm well-versed in the general direction of side hustles, but I'm keen on learning and getting to know the community a bit better.

I'll fill the form and see what happens from there.
