Thread: [Looking to buy crypto with my Credit card but my country is not supported](#)

PoLoW - October 2, 2022, 4:39 am

Long story short, I want to buy crypto with my master card but coinbase is not supported and other crypto sites charge a big percentage like \$85 crypto for \$100 frok my card.

Any other good alternates?

Docker - October 2, 2022, 4:54 am

I'm using Binance and im getting 98 euros for 100. Maybe try that one.

Seems like if you're buying without using a bank account, the fee's are incredible. Moonpay, transak, and wyre are all good but the fees can be outrageous.

You can not buy crypto with Nigeria Atm card this is due to Government restrictions but you can by from p2p

PoLoW - October 6, 2022, 2:59 pm

For some reason binance works now %2 fee but i am good with it.
