Thread: [Looking for MONERO via zelle, cashapp or paypal](#)

I normally use a specific person on here for this but he has been unresponsive the past 20 hours. Need Monero pretty sooner rather than later. Anyway, hopefully someone can provide. Need \$300 worth of XMR

That works, I will give this thread a few more hours. I'll reach out tomorrow if anything. Thank you.

I would like to close this thread. For anyone that may be interested. I found a great website where you can buy Monero directly from another person and you can also choose which payment option. I have already made a few purchases and I can confirm it's very legit. So I'm going to leave this here for anyone searching.
