Thread: [What are your best strategies on Bytes flipping or Slots.](#)

murt - October 5, 2022, 2:16 am

Also,

what are your best flip streaks.

I am really bad at flipping however I turned a 900 bytes @Livewire@ kindly shared into 15k using slots in less than 15 minutes.

Koyote - October 5, 2022, 2:17 am

Never had a winning flip as far as I remember, and only played the slots to get the award as you're just gonna lose long term if you keep playing.

Goods - October 5, 2022, 2:18 am

I tend to never be lucky enough so typically I stay away from it although I'm sure I could flip gambling on baseball.

SIM-5244392 - October 5, 2022, 3:08 am

Go all in. Win or lose one flip only

Michael - October 5, 2022, 3:14 am

The best strategy is not flipping at all bro.

Yes. It's completely random, so not really possible to use a strategy.

Mac Miller - October 5, 2022, 3:53 am

I think 5k was the most I've profited in one streak

molly69 - October 5, 2022, 4:39 am

Avoid slots but go all-in on Sportsbook

Just lot 10k bytes because of two soccers matches, I'm at 40% of the sportbook award, too sad ...

They were "easy bet" matches, like 4 vs 1.8 prognosis, and those MF at 4 found the strenght to win the match

Go small on bigger odds always works out better

Hockey games are more easy to predice. The season is starting very soon (next week).

Didn't tried it yet on HF but the sportsbook are usually the same everywhere.

Didn't know this existed. Goodbye to all my bytes.

sweatpants - October 5, 2022, 7:28 am

I'll flip the min bet for a few times a row and go all in balls deep and empty my whole bytes wallet, I've gotten good at blackjack over the last couple years but nothing beats public humiliation by losing your bytes infront of friends!

BiNBo - October 5, 2022, 10:38 am

I've had good and bad luck with the slots and blackjack, feels like blackjack just pays out more often. Sportsbook has treated me nicely though!

Seaking - October 5, 2022, 11:02 am

After discovering the slots and other features in my professional opinion my strategy of losing most of my bytes is successful. The trick is to keep increasing your bets after every loss until you win or bust.

LeetSpeed - October 5, 2022, 11:06 am

No strategy here it's all YOLO!

bot_o_mated - October 5, 2022, 11:59 am

Only logical strategy given that when you flip possibility of a win and lose is 50% is this
first gather something like 10k bytes then
flip 5 bytes if you lose
flip 10 bytes if you lose again
flip 30 bytes if you lose again
flip 90 bytes if you lose again
flip 270 bytes if you lose again
flip 910 bytes if you lose again
flip 2630 bytes

Now its like when flipping coin its super hard to get the same side 7times in a row but its not impossible, similarly when flipping this is the best way to make some bytes but of course if you are simply not loved by stanely you will lose 7times in a row and that will be your lesson to never flip again

35 bytes to 18k, that was a good one for me.

Yin Yang - October 5, 2022, 3:28 pm

Best strategy is not to gamble. I've learned the hard way.

Charlie Sheen - October 6, 2022, 5:12 am

I don't really play any of the games, when they first came out I played maybe 200 bytes of blackjack or slots but never really got into it.

Vibe - October 18, 2022, 10:02 am

69,420,911 is my flipping strategy

mickeh - October 18, 2022, 10:14 am

I don't think I'll be any good at slots, I've only just done my first bet in the sportsbook

StuffSneak - October 18, 2022, 10:15 am

I think martingale should be good to try however without scripting, its painful to do it manually.

BiNBo - October 18, 2022, 10:38 am

My best consistent luck has come from the sportsbook so far, got the slots award and beyond that I avoid them. Blackjack is pretty fun though. It all comes down to a whole lotta luck though.

shakur123 - October 18, 2022, 11:41 am
