Thread: [Greyhat Passive Income \(\\$1000-\\$4000/Month\) \[Guide + Mentorship\]](#)

SecurityCult - October 5, 2022, 10:09 am

Update: Old Thread was removed due to my discord not being verified, this has been resolved.

I recently stumbled across this greyhat money making method with my own whitehat passive income method and have boosted my monthly passive income by over 400%. This method is very easy and has absolutely nothing to do with crypto currency, trading, ads, marketing, CPA, Ewhoring, betting, gambling or any of that bullshit and I can guarantee this method has never been seen on this forum or any similar forum.

Discord: LORDGASP#5201

Current Price: \$800

Requirements:

- PC/Laptop
- \$50 Investment
- 5-10 minutes a day
- Paypal/Bank Account (If you don't want to wait an extra 3-4 weeks for your payment through mail)

Had purchased this method almost a week ago. Setting it up took me just an hour and then after 2-3 days of waiting period, started making money instantly.

I have been in IM since 7 years, and this is the first time I have seen this method.

Super easy to scale it as well! 10/10 FOR NOW

Will update here once I withdraw the money (can withdraw every month).

I'm going to keep it short because there's only one copy left and someone's bound to pick up on it. OP is not a liar. There is definitely nothing like this currently on the market here. And it really is as simple as he says it is, and as effective (given you do everything by the guide).

One thing I will add (just from a glance) is that this method is not really for patient people. SecurityCult has mentioned in our Discord convos that you'll double your investment in about 1 1/2 months, and you most likely won't make that same ~\$1300 in your first month doing this. BUT it will make you money as long as you put in the time and effort. EDIT: I forgot to add that this is scalable,

so at some point you're going to make that same amount and even more. So as long as you keep doing it, it'll work.

Overall, good method. I'm excited to give it a try and will update with any updates I can.

The information is concise, but it's explained so well that you can't really fail and it includes useful images so you know you're doing it exactly right. I like that it isn't bloated with unneeded crap that you tend to find in some methods too.

It is indeed greyhat, but you're not doing anything that will affect an individual and I'm absolutely fine with that. The scalability of this is very good and OP's estimate of earning \$1000-\$4000 is possible.

While it does take work to earn such amounts, the work itself takes up hardly any of your time, it's easy and OP's estimate of the work taking 5-10 minutes to do is accurate, it could be even less to be honest.

I've never seen anything like this before and it's not CPA, eWhoring, betting and everything OP said it's not. So far, I'm very impressed. Thanks again, SecurityCult.

is both paypal and bank acct required? or either one?

Also you say \$50 investment -- is the return based on how much we invest? or is it not related? what determines 1000 per month vs 4000 per month? investment, effort, or is it just random?

And do we need rdp or anything? and can the 5-10 min of work per day be done from phone? and what type of work is it?

do we need to speak to people, sell, etc?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
