Thread: [Faceit AC Recoil Macros](#)

Pilr - October 5, 2022, 9:52 pm

Hey

Are there any no recoil macros working on the faceit ac?

I heard they detect these logitech ones now so ppl are using arduinos to bypass this.

Anyone point me in the right direction for a faceit recoil script? dont mind getting an arduino for it.

Thanks!

Playing only counts if you aren't cheating. That's letting a computer play for you.
