Welcome fellow HF members,

I'll cut the bullshit and keep it very straightforward.

Over the years I've been using a money-making method that's been generating me around \$100-\$150/day passively.

I've tried everything IM-related (media buying, CPA, OnlyFans, SEO, ecom), and over the years this is the only method that's been generating money for me to this day every month, after almost one year passed from my first sale.

The way it works is fairly simple.

You'll be creating a business and sell a a product to businesses that costs a monthly price.

Businesses will keep renewing every month for the very long term once they're in. But what's special about this method isn't the product - but the way you find businesses that want to buy your product.

With this method, it's really easy to find new leads, and even easier to sell them the product once they're in, due to the offer you'll be offering.

In fact, it's so easy, it can easily be automated with virtual assistants (that's exactly what I did). That's exactly what makes this method so powerful.

But it doesn't end here. What I'm selling is not only the method itself - but the whole package. This includes:

- ? The websites I used to sell the product & where to find it
- ? How to sell the product and get the clients to buy (and what to NEVER say...)
- ? All of the websites I used to find clients
- ? 2 private resources, built & created by me, that will EXTREMELY help you in the start

And one more thing - this can be done anywhere, at any time, in any language. It can even work on local businesses and in fact - it's even better if you can approach local businesses. Literally every business in the world needs your product so marketing it won't be too hard and the market is endless. This literally can't get saturated. It doesn't matter if you're from Germany, India, or the USA.

PRICE: \$99.99 \$49.99

My guide is \$100 but I'm going to sell the first 100 copies for 50% OFF... Just use code "HF" at checkout.

Frequently Asked Questions

Q: Does this method require an investment?

A: The main method does require an initial investment of around \$30. You'll cover this investment in the first sale you'll make, which can be made in your first couple of days. I do include in the guide a strategy to execute this method without investment at all. It's a great way to build some cashflow before starting the main method..

Q: Is this legal & whitehat?

A: Yes! This is 100% ethical, legal, & whitehat (unlike most methods that are being posted here).

Q: Do you offer any support or help in case I have questions?

A: Of course! I offer 24/7 support via email or PMs. I'm always available for questions.

Q: Can this be automated?

A: Big yes! I go into great detail about this in the course. Every aspect of this method can be automated with the help of virtual assistants. I did it and you can do so as well.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

How long is the setup until you make the first sale? Do you need to build brand awareness?
