Thread: [Hack Game Crew Tier Pricing](#)

Omniscient - October 9, 2022, 9:24 am

I noticed the high Bytes prices of Crew Tiers for Cartel and Syndicate. I have changed them to reflect current market value of Bytes.

Cartel 1,000,000 -> 600,000

Syndicate 500,000 -> 300,000

That's all of HF's crews. Please note both Cartel and Syndicate allow for a custom group image.

Thank you.

Pretty nice of you to drop the prices on these to combat inflation.

Might be time for me to upgrade my syndicate to a cartel

Your top row of awards is legendary.

OT: Glad to see a price change maybe people will purchase their own syndicate or cartel instead of buying from others
