TheRyan - October 10, 2022, 8:58 am

Hi, here to enjoy HF!

I was a member here from about 2009-2014 until I moved on to other things in life, I dont even remember the account that I had at that time!
But I'm happy to be back.

I mainly focused on RATs/JDB/Phishing/E-Whoring/Social Engineering at the time.

Now I'm a bit calmer and just looking to get my feet wet again as I'm sure A LOT has changed.
Feel free to ask any questions or just give a welcome!

Thanks, TheRyan. ?

Welcome back buddy. Enjoy your stay

Cooligan - October 10, 2022, 11:17 am

Welcome back to HF [TheRyan](#) , hope you stay for good this time!

JDB attacks haven't really been popular in a while tbh, but they definitely still exist.
I remember you used to see loads of thread titles in the marketplace with "JDB" featured, but now

it's more so what the RAT can or can't bypass it seems like. That and if crypts are actually FUD or not lol.

Senno - October 10, 2022, 11:19 am

Welcome back to the forums, buddy.

Nice to see old member back to here again. Best of luck for you.

So I've noticed! There was at one point a whole sub-section dedicated to JDB, though I might be imagining that lol.

And yes, crypts being wrongfully labeled as FUD was extremely common in my day as well!

Well I'm excited to be back, maybe not to the extent I was into it before - for now ?

Thanks for the love!
