Thread: [\[PASSIVE INCOME\] YOUTUBE SHORTS | NO EFFORT | GUARATEED MONEY](#)

Pretty much we will be uplodng YouTube Shorts.

Create a new G-Mail account.

Your name must be something that will represent your channel.

Set-up a proper banner and profile picture.

Go to TikTok, Reddit or any other platform where viral videos are uploaded.

Find something that is trending right now or something funny.

If you are using TikTok, use a watermark remover.

Upload the video as a short.

Add a personal/normal title.

Use hashtags that are popular and describe your video.

It may not work at first, but staying consistent will eventually give you results

You can eventually sell the channel for over \$1k+ (Takes me about 2 weeks)

how many videos did you upload per day?

when you sold it after 2 weeks how many subscribers & views did you have?

SpiritualDose - October 12, 2022, 7:55 pm

I am going to try this out.

Only thing I don't know about yet is where to sell.

But I have created a niche specific account and am uploading. Will report back in 5 days, then 10 days, then 15 days

Lol I gave up like a few days in but it definitely could work. I'd recommend making a few accounts each different niches and trying to get some influencers to help but I could see it working long run.
Short term not at all
