Thread: [Hackforums decides if I'm watching a movie tonight](#)

So, looks guys:

My girl wants me to watch the movie "IT" with her tonight.

I'm gonna let yall decide if she gets her wish.

Coming from someone who spends way too much time online, if you have to question between posting on HF and spending time with someone you presumably do not have distaste for, evaluate your priorities. Log out, have a good night.

Upgrader - October 11, 2022, 4:52 pm

No from me, and 33 others. Hope your girl doesn't mind! :)

Don't ruin anything for me, lmao.
I know next to nothing about it.

I say just go for it. HF will be here when it's done.

Why not do both then? Watch and simultaneously scroll HF.
