I've watched the first season. Good anime to watch while you're high.
I can't stand it when I'm sober though.

First season and second season are what all shounen should strive to be.

Once you get to season 3/4 when meliodas turns in to assault mode it's brutal. But after that I fell off. I'd recommend both the films aswell. The fights in that are nuts. Zeldris is a animal to.

I didn't like the last season.
Other than that pretty good. Kinda slow sometimes.

I only saw the first season and half of the second, I thought it was pretty decent though.

I honestly was gonna drop it because of the animation. I decided to gamble on it and it was amazing.
