Can you give me a backup database from MySql so I can try or I can setup server like your game that you host on steam here in my PC since I get the source of the game. I host lot of private server game before like MuOnline,Ran,Ragnarok,Gunz and other maybe I can modify some site like from MU with CMS and remodify or redesign it match on your game.

If you don't mind this being in .net core, shoot me a PM with your project info and budget. Thank you.

LiveMines - *October 14, 2022, 9:29 am*

I can probably take this up for you. Contact me for more details. Will get this done.

Still looking for a guy, easy money if you know mysql and some php or js

r1t0 - *October 18, 2022, 4:01 am*

hey, hit me up, I can do this!

GenC0re - *October 21, 2022, 2:43 am*

Sent you my telegram in convo.

UNKNOWN1 - *November 10, 2022, 8:06 pm*

Anyone?

Still need this done
