I knew these russian sites. The thing is they offer SMS receive access via platforms like IG etc. I am just looking to use this number to receive OTP on any platform hell even a local site of mine. So yea any ways?

I am rarely in need of need it though. I will probably use it 1 or 2 times in a month. So I doubt I will use up all the balance honestly. It will take a long long time.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
