Quote: Hodlonaut Wins Norwegian Lawsuit Against Self-Proclaimed 'Satoshi' Craig Wright
In her ruling, Judge Helen Engebretsen wrote that "Granath had sufficient factual grounds to claim that Wright had lied and cheated in his attempt to prove that he is Satoshi Nakamoto."

CW is such a cunt. That guy has to get ostracized from the entire crypto community. Always been a narcissistic fraud and always will be.

I have always thought he was full of shit.

The man is such a blatant fraud and abusive type, it's amazing that he's gotten as far as he has. It just goes to show in this day and age you just need to be loud and active to keep going, but eventually he'll get caught out in a major way and will have to pay for his lies.

Wright has also been ordered to pay Granath's legal fees in the amount of NOK 4,053,750 (approximately \$383,000).

Good

I am really hoping that as these lawsuits build up people begin to realize he is not Satoshi and indeed just a fraud. This act of suing everyone is the same tactic that all cheaters and liars use such as Lance Armstrong that sued everyone called him a cheat. In the end, he was a cheater.

Craig Wright has had every opportunity to prove he is Satoshi. He hasn't even gotten close. And indeed the evidence presented in court makes him appear as a liar and cheat with fabricated evidence. A Judge straight-up called him out on it.

What a scumbag that guy is trying to copyright the Whitepaper and all the shit he's pulled. Special place in Hell for people like him.

Multiple people / associates with him were. Wasn't just a one man show.
