Thread: [Increased Post Bonus Bytes](#)

Komodo - October 21, 2022, 7:45 pm

I know currently you get 250 bytes if you make 100 posts per week, maybe making tiers with bonus bytes for 250, 500, 1000 posts etc.

It's a double edged sword because it may bring activity to those who are interested, but I also understand it may bring out more spam posting.

Doesn't have to be a crazy amount, and there should be a cap so that it's not abused but it's just an idea.

Vibe - October 21, 2022, 7:45 pm

I'd never say no to more bytes

Lrrr - October 21, 2022, 7:50 pm

How about more ways to spend bytes.

murt - October 22, 2022, 6:10 am

that would be very generous add on to be honest, 2-3 bytes per post doesn't get us anywhere

Yin Yang - October 22, 2022, 6:11 am

I remember when the lounge head award and double bytes over the summer was introduced and it helped activity

webdev77 - October 22, 2022, 8:14 am

More bytes doesn't necessarily mean better. High inflation doesn't help anyone aside from those deeply in debt. More promotional events would be fun, but I don't know that increasing reward points necessarily does much.

Omniscient - October 22, 2022, 9:45 am

I suppose I can increase this. That's not unreasonable. 250 Bytes was set a long time ago.

I will double it to 500 Bytes right now.

Good deal, thank you.

Everyone you now all owe me 250 bytes from the bonus for the next 2 months, thank you.
