Recently beat the game on veteren difficulty (flex). captured this, it plays about 5 minutes into the end credits if you stay. after the video it goes back to credits. Enjoy!

Spoiler ([Click to View](#))i really like the detail with the 3d printed slide/handle.. that part was pretty cool. feels like this is mile high club+no russian combined. cant wait to see what type of DLC they put out for this.

I saw this yesterday, that's why I think there might be campaign expansions throughout the cycle.

Oh really? I didn't even know that, that's pretty good actually considering we get 2 years of this game.

Wait wait wait. Isn't MW2 years and years old? Did they remake them? I haven't looked at COD in years...

The new cod is called Modern Warfare II (same name basically, just a new cod and continues the story).
